

Do Now 5.04 1. Begin reading the following lessons of the EarSketch documentation in [Unit 2]
(<http://earsketch.gatech.edu/category/unit-2>). * 2.1.0 [Sections and Form]
(<https://earsketch.gatech.edu/earsketch2/#?curriculum=2-1-0>) * 2.1.1 [A-B-A form]
(<https://earsketch.gatech.edu/earsketch2/#?curriculum=2-1-1>) * 2.1.2 [Custom Functions]
(<https://earsketch.gatech.edu/earsketch2/#?curriculum=2-1-2>) 2. Answer the following questions, based on the reading: * Why might it be useful to group sections of music into functions? * Write the code for defining a `verse()` function that takes in 5 parameters: `drums`, `guitar`, `bass`, `startMeasure`, and `endMeasure`.
