

Do Now 4.03 ## Type in your Console ``python def print_6_stars(): my_string = " for i in range(0, 6): my_string += ' ' print(my_string) `` ## In your Notebook 1. Write down what the output of the function `print_6_stars` is. 2. Write a function `print_star_square` that calls `print_6_stars` in a loop to produce the following output. ``python >>>python3 print_stars.py * * * * * * * * * * * * * * * * * * * * * * * * * * * * `` 3. Rewrite the function `print_star_square` without using `print_6_stars`. * Note that there are two ways to get the above output, so just try doing both!
